

In flue outdoor sensor

Multifit IFOS provides installers with a cost effective, easy to install way to comply with Boiler Plus, when used with uSense or other time and temperature controls.

Feature	Benefit
Sensor housing clips onto the air duct of the horizontal flue terminal	Quick and easy, takes minutes to fit
Fits under the air duct	Kept out of direct sunlight, so no need to fit on a north/north west wall
Free flow of air over sensor	More accurate temperature sensing, ensuring best possible operation
Two wire cable runs back to boiler down the flue air duct	Extremely simple to fit, with no drilling or disruption
Very few parts	Extremely easy solution compared to many other weather sensors

Visit baxi.co.uk/boilerplus to find out about other options to become Boiler Plus compliant.

BAXI
Make it easy

Give your customer complete control.

The Baxi uSense Wired Smart Thermostat is the perfect addition to their Baxi boiler. Giving your customer complete control of their heating, from wherever they are. uSense makes perfect sense.

Feature	Benefit
Load compensation	Reduces energy bills and helps with Boiler Plus compliance
3 year warranty*	For peace of mind
uSense app	Control your heating using your smartphone or tablet, wherever you are
Central heating schedule	Use the app to schedule your central heating to come on when you need it – so you never have to come home to a cold house!
Holiday mode	Saves you money by reducing the temperature while you are away, returning to normal when you come home
Monitor energy use and costs	Gives a guide to how much energy your heating system is using to help you save money on your energy bills
Automatic summer/winter time changes	Automatically changes the clock to Daylight Saving Time so you don't have to re-set it
Presence detection	The unit lights up when you approach it
Boiler fault diagnosis**	Shows error messages to help you diagnose faults
Integrated Wi-Fi	Can be connected to your home internet
Quick Auto Programming	Answer a few simple questions and it automatically creates a schedule based on your habits
A single-zone system	No zone valves or subzones required for homes smaller than 150m ²
Installer details	Add in your details so your customer can contact you for their annual boiler service

* T&C's apply. Visit baxi.co.uk for more details.

**Baxi uSense Wired Smart Thermostat is compatible with all combi boilers using the 230V switch live. Additional features, such as boiler fault diagnosis, are enabled when connected via OpenTherm. The Baxi 600, 400, 200 and 100 Combi boilers are OpenTherm compatible.
