- Easy and Quick Installation
- Includes standard UK 13 Amp plug and wall mounting brackets
- Feet or castors available as optional extras
- Safety cut out system to prevent overheating
- 100% recyclable Aluminium Body
- All Heaters 100mm in depth
- 4 outputs from 750watt to 1500watt

- **Guarantee: 10 years on Aluminium Body and 2 years on Electronics**

The eco SAVE Dynamic Heater is designed to meet the heating demands of the modern home. Unlike other inferior heaters on the market the eco SAVE is manufactured from high grade aluminium designed to last. The Heating Elements and High Performance Heating Oil are housed within the sturdy aluminium body of the Heater.

Due to the modular construction and air flow outlets at the top of the Heater the eco SAVE benefits from fast heat-up times and provides an even surface temperature with optimum radiant and convected heat through all heating cycles.

For ease of operation the easy-to-use digital programmable thermostat is located at the top of the Heater. It will accurately control both time and temperature, is fully programmable 24/7 and offers comfort, economy, frost protection and on/off settings.

At EHC we value your safety and as such the product is fully protected against overheating using a high precision automatic cut-out device.

Our "Click & Fit" hanging brackets make the installation of the eco SAVE Heater easy and quick to install.

For future maintenance purposes the main PCB is housed in an easy to remove cartridge system to avoid removing the Heater from the wall during repair.

EHC SMART Wi-Fi CONTROL

When you purchase our Smart Gateway for your Wi-Fi Ready eco SAVE Heater, simply connect to the Internet within your property using a Smartphone, Tablet or PC and you will be able to open your EHC Smart APP to control your heating 24/7. Our APP is compatible with both Apple and Android products. Our 'easy to use' APP boasts a selection of menus designed to maximise your comfort and reduce your Heating costs

- Control your heating anywhere and anytime
- Switch the Heaters On/Off at any time
- Adjust each room temperature separately
- Limit electricity consumption to avoid exceeding maximum power available
- Monitor your current electricity consumption
- View the electricity and temperature consumption history
- Check the latest weather forecast

To convert your Smart Wi-Fi ready eco SAVE Heater to an intelligent appliance that can be controlled anywhere, anytime you will require the EHC Smart Wi-Fi Gateway. We also offer an optional Power Meter Clamp.

SMART Wi-Fi APPS

Home Page Menu

Displays the heating status, temperature and operational functions of your system. You can select how you want to program your Heaters 24/7 however you have the facility to make changes to your heating requirements anytime, anywhere.

Consumption Limiter Menu

All homes have a maximum electrical power capacity. In order to stay within capacity limits, the Smart system has an inbuilt electricity consumption monitor/limiter. For whole house protection we offer an optional 100amp Power Meter Clamp.

Power & Temperature Statistics Menu

The Smart system enables you to monitor the consumed power and temperatures at any time.

Individual Heater Devices Menu

The Smart Wi-Fi system allows you to add, delete and prioritise Heaters at any time to provide you with full system control.

Weather Forecast Menu

The Smart system also features a live weather forecast facility. This will help you to anticipate any significant temperature changes and adapt your heating times and temperatures to suit.
