

## ELECTRIC COLUMN.

The electric **COLUMN** radiator combines classic looks and flexibility, with all the advantages of instant heat. It is available in both horizontal and vertical models which are ideal for retrofit in extensions, conversions and conservatories. Electric **COLUMN** is only available in white. When electric heating is not appropriate, the **COLUMN** is also available as a hydronic version, please see page 12 for full technical details.

Remote control thermostat supplied.

Towel rail. Please see opposite or page 99.

Micro fibre cleaning brush. Please see opposite or page 99.
