

NEW**TOUCH SCREEN
PROGRAMMABLE
THERMOSTATS****SMART TECHNOLOGY** Introducing **The MYSON TOUCH, TOUCH RS and TOUCH WIFI****SMART
CHOICE**

The MYSON TOUCH controls your room temperature and if required your hot water. The MYSON TOUCH RS controls your room, floor temperature or a combination of both. The MYSON TOUCH WIFI allows you to control your heating and hot water, wherever you are in the world!

**SMART
CONTROL**

The MYSON TOUCH WIFI is controlled by a smart phone or tablet, which allows you to control your heating system when you are at home or on the move.

**SMART
START**

An intelligent innovation from MYSON. Our Smart Start Technology reduces heating bills by automatically delaying your system start-up time on warm days.

heating through innovation.

*TOUCH model only. **TOUCH RS model only.

MYSON TOUCH WIFI

Fixed/Static IP address or the use of a Dynamic DNS service is required for remote access

App Controlled Room Thermostat.

Order Code; **TOUCH WIFI**

- An app that allows you to use a smart phone or tablet to control your heating from any location - do it anywhere at home, at work or on the move. Warm the house before you get home, switch on the hot water boost before taking a shower or save energy by adjusting heating times as the weather changes.

- Complete with multi-room functions, including room titles for easy reference. Temperature lock one or more rooms and adjust the comfort levels in each room individually (this feature requires a MYSON multi-link unit).

Download the MYSON iPhone or Android app at www.myson.co.uk/wifi or scan the QR code

MYSON TOUCH

Touch Screen Programmable Room Thermostat.

Order Code; **TOUCH**

- The MYSON TOUCH will allow you to control your room temperature with four adjustable timed periods for each day - morning, day, evening and night. If activated the 2nd timed channel can control the on/off times of your hot water.
- Alternatively, the 2nd timed channel can be used for a second heating zone when used in conjunction with a room thermostat such as the MYSON MRT1

MYSON TOUCH RS

Touch Screen Programmable Room Thermostat with Remote Sensor.

Order Code; **TOUCH RS**

- The MYSON TOUCH RS is primarily designed for underfloor heating systems. It will allow you to control your room temperature with four adjustable timed periods for each day - morning, day, evening and night by sensing the temperature of the room, floor, or a combination of both.
- Supplied with a 3 metre remote sensor, this can be extended with the use of a shielded cable.
